

LC1612

In order to meet the needs of overseas markets, G.WEIKE launch CO2 laser cutting machine that can cut and engrave wood, cloth, leather, acrylic and other complex materials , provide professional industry solutions to reduce costs and improve profits for our customer .

The machine is especially designde for garment industry,it can do accurate cutting on different kinds of testile fabrics in random figure.

Adopt mendium size crawler-type working table and negative pressure absorb conveyyor, to ensure the smooth of zhe material when do cutting.

Mechaical parts with importde rack,gear transmission system,to ensure high precision working in high speed,when equipped with automatic feeding system, can realize the continuous automatic cutting of fabric in rolls,

MACHINE SPECIFICATIONS	
Laser - Type	Sealed CO2 laser tube
Laser Power	150w
Cutting Area	1600*1200mm
Resetting Positioning Accuracy	±0.05mm
Working Voltage	AC 110 -220V±10%, 50-60Hz
Gross Power	<1000W
Operating Temperature	0-45℃
Minimum Shaping Character	English 1x1mm
Driving System	Stepper
Cooling Mode	Water-cooling and protection system
Auxiliary Equipments	Exhaust-fans, air-exhaust pipe
Compatible Software	Corel Draw AutoCAD Photoshop
Samples
